 - remain free of non-prescription drugs, alcohol, and/or any substances that may cause impairment during the trip.

3.0 RESPONSIBILITIES OF THE SCHOOL PRINCIPAL

- 3.1. The principal, as the person in charge of the school, is responsible for the safety and welfare of students and staff while on school trips and must approve, at the school level, the planning, preparation, and carrying out of all trips.
- 3.2. The objectives and educational merits of any proposed trip shall be discussed with the principal, or the principal's designate, before any initiatives are taken by teachers to organize a trip.
- 3.3. The principal, in consultation with the teacher-in-charge of the trip, is responsible for approving all teachers/chaperones/supervising adults for all trips.
- 3.4. The principal, in consultation with the teacher-in-charge of the trip, must obtain certificates of insurance verifying that travel tour companies both inside and outside of Canada carry the appropriate minimum amounts of coverage required by the Nova Scotia School Insurance Program (see Appendix "F").
- 3.5. The principal, in consultation with the teacher-in-charge of the trip, is required to consult with a representative of the School Insurance Program to ensure that all the necessary coverage is in place for out-of-province and international travel.
- 3.6. The principal, in consultation with the teacher-in-charge, is required to ensure that students and families are fully aware of the requirement and cost of all insurance requirements.
- 3.7. The principal must ensure that all trips have a designated school staff person (teacher or administrator) in charge who must be a participant on the trip, even in instances where leadership and expertise comes from a community person. The exceptions are those instances in which a non-staff coach travels regularly with a team, with approved chaperones as required. In such instances, the coach is in charge.

- 3.8. The principals shall ensure that, when students are travelling overnight and are billeting in private residences, all adults (18 years of age and older) living in the household must have a satisfactory Criminal Records and Child Abuse Register search completed.

4.0 INSURANCE AND RELATED MATTERS

- 4.1. The School Insurance Program for general accidents covers all students within Canada. It is recommended that, for out-of-province trips, all participants secure additional insurance. Student accident insurance through the School Insurance Program is not applicable for travel outside of Canada. Trip organizers should ensure that all teachers, chaperones, and students have medical coverage for outside of Canada.
 - 4.1.1. SIP insurance policies exclude injuries, damages, losses, and associated legal and investigation costs contributed to or caused by declared or undeclared war or any act thereof. This includes student accident insurance.
- 4.2. Coverage through SIP for schools and school boards that involves transporting students on water is very limited and must be approved by SIP's excess insurers. All activities that involve students being transported on water, such as, but not limited to, whale watching, tidal bore rafting, or a harbor cruise, must be referred to SIP well in advance of the activity.
 - 4.2.1. A "Watercraft Application" can be obtained by contacting the SIP office at 1 (855) 480-2170.
- 4.3. The SSRSB is covered for liability insurance and all students would be covered by student accident insurance unless there are students who are not returning to school in the fall or who are no longer registered students of the SSRSB (i.e.: a grade 12 student who graduates at the end of June).
- 4.4. The SSRSB and school are held to a standard of care as defined by the Education Act. It is that standard of care to which the courts will hold the SSRSB should a student be injured. Supervision of students is critical. The teacher-in-charge and the principal are expected to ensure there is adequate supervision during any activity. Additional personnel can be authorized when needed. Circumstances that require additional personnel include situations where:
 - Student to supervisor ratios are not adequate.
 - Age, maturity, and ability level of the students require more attention.
 - The type and level of risk associated with an activity is high. A good example of this would be taking a class on a whale watching trip.
 - Other circumstances related to an activity are present (e.g.: crowded locations, students with special needs, new off-site activities are piloted).
- 4.5. Any time a student trip is cancelled, there shall be no cost to the SSRSB.
- 4.6. Any time a student is sent home, either due to illness or inappropriate behavior, there shall be no cost to the SSRSB.

5.0 STUDENT DISCIPLINE ON TRIPS

- 5.1. Teachers shall have the same authority as when teaching a class for all co-curricular and extra-curricular school events approved by the principal, at all locations and at any time.
- 5.2. All SSRSB and school policies, guidelines, and regulations shall be in full force for all trips.
- 5.3. In the event of unacceptable student behavior while on a trip, the staff member in charge will ensure that appropriate disciplinary action is taken.

- 5.4. A shadow trip occurs when a student refuses to participate in a regular supervised class trip, but decides to go individually, unsupervised, to the same event or location as the class group.
 - 5.4.1. Students who do not participate in a day trip may not participate in a shadow trip of any kind at the same time as the approved day trip.
 - 5.4.2. Participation in a shadow trip shall constitute a deliberate break of school discipline policy and the offending students will be subject to school suspension by the principal.
 - 5.4.3. Students who do not participate in a day trip for whatever reason shall be provided with appropriate schoolwork.

6.0 TRANSPORTATION

- 6.1. Students on a school trip shall travel by transportation arranged by either the school principal or trip coordinator.
- 6.2. Transportation shall be arranged as per the SSRSB's transportation rules and regulations. In accordance with Policy 370: Co-curricular Bus Trips, the number of buses available for trips may be limited, so schools should request bus reservations early.
- 6.3. Student Transportation in Private Vehicles
 - 6.3.1. The SSRSB encourages, wherever possible, the use of school busses for the transportation of students.
 - 6.3.2. The SSRSB recognizes the need for some school employees to use their own automobiles or to occasionally rent vehicles for school purposes.
- 6.4. To safeguard students, employees, and the SSRSB in matters of liability, particularly as this relates to an employee transporting a student or students, the following will be observed:
 - 6.4.1. All transportation of students will be in accordance with the Motor Carrier Act. Students enrolled within the SSRSB shall not be permitted to operate vehicles for the purpose of transporting students on co-curricular or extra-curricular trips.
 - 6.4.2. SSRSB employees, designates, or approved volunteers shall not enter into a verbal agreement for transportation of students without having completed and filed, at the school, the appropriate documentation. All employees are required to complete Form J, which is available at all schools. Those completing a Form J (Appendix "E") must have a minimum of \$500,000 liability insurance as required by law. The SSRSB recommends the amount of coverage be a minimum of \$2,000,000.
 - 6.4.3. It is the law in Nova Scotia that any automobile must have automobile liability insurance for \$500,000. Under the Motor Carrier Act, any employees or volunteers transporting students on behalf of a school board must have automobile liability limits for \$2,000,000 and complete a J Form, which must be on file with the school. To alleviate some hardship for employees and volunteers, SIP has purchased insurance to meet the legislative requirements of school boards. Specifically, employees and volunteers only require the minimum provincial requirement for automobile insurance of \$500,000 and complete the J form in order to transport students to co and extra-co-curricular activities.

7.0 CLASS FIELD TRIPS

- 7.1. Each class field trip on or off school property must be accompanied by the regular teacher.
- 7.2. The teacher is to be accompanied by at least one other responsible adult.

- 7.3. If several classes are participating in the same activity, each class must have the same supervision standards as above.
- 7.4. All schools are to have their own policy and procedures that clearly outline age-appropriate expectations so families and students are aware of the rules, as well as their responsibilities.

8.0 IN-PROVINCE DAY TRIPS

- 8.1. For each trip, the principal is required to complete a Student Trips – Principal’s Checklist (Appendix “B”). This checklist is to be kept secured in a file at the school until at least the first teaching day of the next school year for insurance and administrative purposes.
- 8.2. Chaperones shall be secured as follows:

 - 8.2.2. For all grade 7 to 12, trips there shall be a minimum ratio of one chaperone to every twenty students.

CHAPERONE INFORMATION

Information for volunteers assisting with co-curricular and/or extra-curricular activities in schools operated by the South Shore Regional School Board:

1. The South Shore Regional School Board welcomes your willingness to help supervise activities for students in this district.
2. School Board Policy requires that volunteers be cleared through the Child Abuse Register and Criminal Records check.
3. The School Board requires that a professionally trained teacher supervise activities except in situations where a professionally trained teacher is unavailable. In those cases, the volunteer must fulfill the requirements of item 2 and must be approved by the school principal, be over the age of twenty-one (21) years, not be a student at the school, and have been instructed orally and in writing by the school principal on school expectations.
4. The principal has the right to allow or refuse the supervision of an activity, based on her/his judgment, and taking into consideration the age of the students, the level of supervision required, the nature of the activity, and the number of students involved. For all overnight activities, supervision by a professionally trained teacher and an appropriate number of volunteers is mandatory.
5. Volunteers must supervise students diligently, according to the expectations set by the school principal and the expectations set in the school discipline code, a copy of which will be provided to each volunteer. At minimum, this will involve:
 - accounting for the whereabouts of the students at all times;
 - ensuring the safety of all students;
 - upholding the good name and reputation of the school and school district;
 - ensuring good behavior;
 - ensuring sportsmanlike behavior; and
 - being able to contact parents/guardians if they are required to pick up their children.
6. On bus trips, the supervisor(s) must, in cooperation with the driver(s), assist in maintaining good discipline on the bus, return with the students to the school, and remain at the school with the student(s) until all have been picked up.

SAMPLE LETTER FOR USE BY TEACHERS FOR TRAVEL TOUR COMPANIES BOTH INSIDE AND OUTSIDE CANADA

Dear Tour Operator:

Our school, _____ of the South Shore Regional School Board, is interested in starting the process of planning a trip for our students to _____.

Please send us the information you have on this destination. Student safety is of vital importance to our School Board. As part of the risk management process we need our tour operator to partner with us in obtaining documents to meet the requirements of our School Board and the Nova Scotia School Insurance Program. At this early stage, we will need certificates of insurance for all vessels, tour bus companies, and your organization for the dates of the trip. Failure of you to provide this documentation could result in cancellation of the planned trip.

You have our permission to supply this letter to the vendors you would use for this trip. Please have the vendors send this letter to their insurance brokers and forward the requested documentation as soon as possible. Do not send documentation that does not cover the dates of the trip. Certificates from other countries may take several weeks to process. **Please do not leave this until the last minute.**

Certificates of Insurance should be made out to:

Nova Scotia School Insurance Program

Attention: Risk Management

Suite 150 – 11 Akerley Blvd

Dartmouth NS B3B 1V7

Vessel – Tour Company is to coordinate the completion of the watercraft application with the teacher in charge (attached). Provide a certificate of insurance for **protection and indemnity insurance** in the amount of \$5,000,000.

Tour Company – Provide a certificate of insurance for **commercial general liability insurance** for \$2,000,000.

The itinerary for the trip may require additional certificates of insurance. You will be advised if this is the case.

Thank you,
