Section 5: Deep Thoughts on Serious Questions

Choose one of the following questions and provide a detailed answer of at least two paragraphs on a separate piece of paper:

1. Using the graph below, describe what the maritime climate is like focusing on
 - ☞ precipitation and temperature.
 - ☞ Positives and Negatives in living in this climate
 - ☞ How the climate is affected by the location of Atlantic Canada.
 - ☞ How our climate affects our way of life

2. The Global Economy has caused many problems for less economically developed countries (LEDC). In your opinion, what are the 3 most important problems that these countries face and how we as a more economically developed country (MEDC) can help.
3. What is meant by your ecological footprint? Write in detail about the ways you can help reduce this and why this is important for the future.
4. As a citizen of Nova Scotia, there are many problems in the world that we don't usually have to worry about but as a global citizen, we should be. **Pick any 2** that we have discussed this year and explain why people in Nova Scotia should be concerned with them.
